

VORTDRY 1000 RANGE

Hair dryers with flexible hose

Ideal for use in hotels and the home.

- **2 models: VORTDRY 1000, VORTDRY 1000 PLUS** and **VORTDRY 1000 JET** (with and without razor socket).
- Automatic hose hair dryer for wall mounting.
- Flexible spiral PVC hose.
- Front cover in self-extinguishing V0 ABS resin.
- Hose extends from 500 to 1600 mm.
- PLUS version equipped with razor sockets for 230 V / 50 Hz and 110 V / 60 Hz power, with overload protection.
- The heating element is protected by two safety devices (automatic reset thermal cutout and thermal fuse).
- Washable dust filter: protects internal parts and guarantees reliable, low maintenance operation.
- Integrated automatic stop: the unit switches off when the blower is replaced, or after around 20 minutes of continuous operation.
- The blower's ergonomic design ensures a sure grip even with wet hands. Its internal core prevents overheating, which can be uncomfortable when used for a long time.
- Protection rating: IPX4.
- IK: 6 for VORTDRY 1000 AND VORTDRY 1000 PLUS; 9 for VORTDRY JET. (Tested to withstand even the hardest impact - IK test).
- Insulation class: II. □
